DEGREES CONFERRED AT GRANGE MEETING

The bi-monthly meeting of the Mattapoisett Grange was held in the Grange hall Thursday night with the worthy master Mrs. Mildred LeBaron presiding.

The third and fourth degrees were conferred on Mr. and Mrs. James Harris, Richard Rawcliffe, Mrs. Dorothy Silva and a member of Fairhaven Grange. Mrs. Myrtle Spagnoli was the third degree master, and Leonard Randall, past master, conferred the fourth degree on the candidates.

The Home and Community Service report was given by the chairman, Mrs. Marion Hatton, who reported the flag to be presented to the town for Shipyard Park has been ordered from Washington. She also reported on the workshop held by her committee and the sewing accomplished for the Grange Fair to be held August 26th.

Albert Pemberton and Mr. and Mrs. Clifford Atkinson contributed to the birthday bank. The relief chairman reported on her work and explained how her collections were used. Mrs. Edward Alves was reported ill.

Albert Pemberton, insurance and business agent for the Grange and also chairman of the plumbing committee, was appointed by the master and voted by the Grange to go ahead with the plumbing project and to contact Mr. Woodacre in regard to same. Other members of this committee comprised the executive committee and Leonard Randall, Hallett Winslow, Earle Wilson, Joseph Furtado, John Denham, Otto Kellish and with the master ex officio.

Thanks of appreciation was extended to all

who helped with the degrees, also to the drivers and members who went to East Freetown Grange last Wednesday night for the third competitive visitation between East Freetown, Mattapoisett and West Wareham Granges. This interesting program originated by the fact that the three masters of these respective Granges were past Pomona lecturers of Sippican Pomona. West Wareham had 28 members attending, with Mattapoisett having 24. The host Grange had 41 of its own members present. Mattapoisett Grange was the winner when West Wareham was the host. This has been a competition of fun and of much interest to surrounding Granges. Tentative plans are under way for a Field Day this Summer for these three Granges.

CIVIL DEFENSE ALERT OF 1961

Civil Defense warning will be sounded in Mattapoisett at noontime Friday, April 28. No public participation is required.

The signal will be "TAKE COVER", the ultimate warning. It is one minute of short blasts on the air horn.

During this time ask yourself if I am prepared for this.

Do I have the necessary things such as food and water put aside to take care of my family for approximately two weeks?

Also, during the day listen to 640 and 1240 on your radio for valuable information about Civil Defense.

THE STATE-US OF STATUS

As part of the observance of National Library Week, author Vance Packard appeared on the stage of the New Bedford High School auditorium last Tuesday evening. The author was introduced by Librarian James S. Healey of the New Bedford Public Library. Mr. Packard's recent books, "The Hidden Persuaders", "The Status Seekers" and "The Waste Makers" have been widely read as telling commentary on the trends and pressures of a complex, modern society. He commented on passages of these works.

As Mr. Packard sees it, the man and woman of our time is searching for recognition. Through external symbols they seek to project an image of themselves so that they may win acceptance among those people whose social level they themselves desire. They seek to reach this chosen status by surrounding themselves with material symbols of authority, wealth and position. They seek to mold themselves into selected pattern. They surround themselves with objects hoping by this means to say to the world, "look at us because we

are successful and therefore worthy of admiration and appreciation". Many forces prompt this drive for status. The constant shifting of population leaves a family without roots in new surroundings, among strangers. The building of houses in the mass, as developments are built, destroys the diversity and variety found in long established communities. These developments are planned to separate the social groups into segregated sections according to their wealth and position. In these communities people are insulated from contact and friendship from people of different background and occupation. The pressure on the contemporary man without roots forces him to crown himself with the authority of a Cadillac and the mantle of wall to wall carpeting in order to enter the kingdom of the country club.

The way is paved with frustration. There is the successful druggist whose great desire is to own and drive the grand symbol - the Cadillac. But the doctors in his town drive Buicks. Since to pass the doctor in status would be to offend him, the druggist must load an Oldsmobile with extras and make it do.

In business, status has become almost a science. In a small business the boss can charge around in his shirt sleeves and operate from a roll top desk in the corner, and this is fine because everyone knows who he is and where the authority lies. In the larger organizations, however, the executive can easily be unknown and overlooked. Therefore it is necessary to build up a symbol of authority. This is done by floor space. The top man is the possessor of the large corner office with wall to wall, light colored, deep pile carpet. The room should be a corner room overlooking something to justify the large picture windows. The higher the position the more the executive should be protected in depth. To accomplish this, at least two secretaries are desireable. Desks range from the efficient steel for the lower executives and proceed up

the ladder to oak, and finally the large mahogany type. Pictures too have their status in the business scene. Prints being for beginners and original paintings are reserved for the highest levels. When the man returns to his home after the labor of the day, his struggle, far from being over, is just beginning. He certainly does not consider the buying of a house. Far more importantly he must buy a position among the people who have achieved the social status that he is aiming for. So it is important that his home be built near the water or near a country club. Many builders recognizing this trend now build a golf course first and then the homes in the development. Then the community separates into doctors, lawyers, engineers and so according to caste ranging outward and downward from the country club. In order to feel secure in his own home the status seeker must fortify himself with roots. To accomplish this end he must furnish his home with antiques. He may even purchase some ancestors to hang on the wall in the form of ancestorial portraits. Wall to wall carpeting is now spreading even into the kitchen. The matter of books is conveniently taken into account by the furniture stores which now offer books for sale by color, size and shape. Mr. Packard remarked that the books "Dr. Zhivago" and "By Love Possessed" enjoyed a huge sale in the country and at the same time are widely unread. People buy them to place on the corner of coffee tables as a symbol.

The children, of course, must attend a private boarding school. Mr. Packard noted that the result of all this straining toward personal status is creating a tremendous emotional anxiety. This is especially true among those who for various reasons find that they have passed the peak and are slipping down the status scale. Hypertension and ulcers are often the result of the strain to reach the peak and of the slide down the scale afterwards.

We enjoyed seeing and hearing Mr. Vance Packard and have found his books interesting. A few things do strike us. Mr. Packard said that he enjoys friends from different walks of life including one clam digger. It seems to us that authors and clam diggers may find it simpler to resist social pressures. The author because his fame guarantees him sta-

FRIENDSHIP CIRCLE MEETS

Mrs. Marian S. Hatton, president of Hilltop Friendship Circle, conducted the business meeting when routine business was transacted. Reports were made of packages of clothing sent to a Korean orphanage, of a recent Preparative meeting, when the Circle prepared and served the noonday meal to those in attendance. A letter of thanks will be sent to Mr. and Mrs. William Hoyt for their donation to the memorial urn for Robert E. Hathaway. Mrs. Lillian Johnson, good-will chairman, will send cards to Mrs. Ida May Lowe, 85 years old, a patient at Plymouth County Hospital, and to George Walker, a patient at the Taunton State Hospital.

An invitation was accepted from the Ladies' Benevolent Society of East Fairhaven to a luncheon and social hour on May 16th. The regular meeting of the Circle will be omitted, and members will meet at Mattapoisett Grange Hall at noon to go to Fairhaven. Members worked on articles for a summer sale and to donate to underprivileged persons.

The recent corned beef supper was well attended, and a food sale will be held at a date to be announced.

TAXPAYERS MEETING

The meeting of the Mattapoisett Taxpayers' Association has been changed to Wednesday, May 3rd, at the Town Hall at 7:30 P.M. At this meeting by-laws will be adopted and election of officers will be held.

tus; the clam digger because he answers only to himself. However a person is forced by circumstances to surround himself with symbols, we feel that the character of the man or woman is under control from within. So we follow Mr. Packard's point only in part. We can't see material things destroying people. If everyone in this country pledged to drive the family car for 20 years, we don't believe the basic character of the people would be greatly altered, but it would raise cain with the automobile industry. Those who are ruled by their possessions are sick but why blame it on the possessions. There are probably as many people of strong character driving Cadillacs as there are digging clams. People seem to be tougher than the finest car or the thickest wall to wall broadloom. In general, people last longer than either. JUDO OF THE MIND

The art of destroying your opponent through Judo fighting is based on using his own strength against him. An expert in this vicious form of combat can maim or kill a foe of far superior strength by means of cunning knowledge of leverage and of the body's vital points of weakness. Highly trained Communist agents are engaged throughout the world using the strength of democratic institutions as a lever to bring about the destruction of these same principals. Where they find danger to themselves, these Communist agents attack. It is a measure of their increasing confidence that they will assault any agency of our government openly, and that the Supreme Court is their battleground to provide immunity from acts of treason. This is done by use of constitutional protections which were designed to guarantee the freedom of the individual citizen.

"Operation Abolition" is a 45-minute documentary film produced at the direction of the House Committee on Un-American Activities. Last May a subcommittee on Un-American activities held hearings in San Francisco. These hearings lasted three days and were the subject of violent demonstrations. The committee obtained the film made by news media and from this film put together a documentary "Operation Abolition" which is now branded a "controversial" film. We saw this film on Monday night. The reason that this film has become "controversial" is obvious to the viewer. It is shocking. It shows trained, identified

Communist agents inciting riot, disrupting the hearing, and expressing complete and utter contempt of this House of Representatives subcommittee. It is hurting the Communists badly by its exposure of the tactics of the instigation and control of a crowd. The reason that this film hits home with such force is that the crowd, which under the expert manipulation of the Communist agents becomes a mob, is made up mostly of young college students. These young Americans are used as an instrument to discredit the hearings

and controlled to the extent that they resist police efforts to restore order. The effectiveness of this film in the exposure of the methods used to instigate riot can best be judged by the smear campaign now in full swing.

For information concerning this film write to the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C. and request a copy of F.B.I. Director J. Edgar Hoover's report entitled COMMUNIST TARGET - YOUTH. In this report he gives the background of the Communist strategy and tactics leading up to the San Francisco demonstrations and names some of the Communists who planned and manipulated the riots. Here is a quote from the report: "It is vitally important to set the record straight on the extent to which Communists were responsible for the disgraceful and riotous conditions which prevailed during the House Un-American Activities Committee hearings. It is vitally important that not only the students involved in that incident, but also students throughout the nation whom Communists hope to exploit in similar situations, recognize the Communist tactics which resulted in what West Coast observers familiar with Communist strategy and tactics have termed the most successful Communist coup in the San Francisco area in 25 years".

Operation Abolition is available to be shown in Marion, Mattapoisett or Rochester to a club or organization. Contact David N. Haley, Barstow Street, Mattapoisett to arrange to see the film.
